Mission

A+ Schools is an independent community advocate for equity and excellence in Pittsburgh Public Schools. We envision a public education system in Pittsburgh where:

- Overall student achievement continues to rise, with 100% of students graduating, and 80% finishing a training program, or a two- or four-year university program, and

- Race is not a factor in determining which students are in the highest and lowest achievement categories, graduate from high school, or matriculate in training programs or colleges and universities.

Our purpose is to be a community force advancing the highest educational achievement and character development for every public school student.
